

COURSE OUTLINE

1. GENERAL

SCHOOL	AGRICULTURAL AND FORESTRY SCIENCES		
DEPARTMENT	AGRICULTURAL DEVELOPMENT		
LEVEL OF STUDIES	7		
COURSE CODE	AGRON1011	SEMESTER	7 th
COURSE TITLE	PESTS OF FIELD CROPS AND VEGETABLES		
TEACHING ACTIVITIES		TEACHING HOURS PER WEEK	ECTS CREDITS
	Lectures and Labs	5 (3+2)	5
COURSE TYPE	Scientific Area		
PREREQUISITES:	No		
TEACHING & EXAMINATION LANGUAGE:	Greek English (Erasmus students)		
COURSE OFFERED TO ERASMUS STUDENTS:	Yes		
COURSE URL:	https://eclass.duth.gr/courses/OPE01154/		

2. LEARNING OUTCOMES

Learning Outcomes
After the completion of the course the students:
(a) Will be able to identify key insect pests of field crops and vegetables
(b) Will be able to understand the biology, ecology and behavior of key insect pests of field crops and vegetables
(c) Will have acquired the basic knowledge on methods to control key pests of field crops and vegetables
General Skills
Autonomous work Literature search, data analysis and synthesis Critical thinking

3. COURSE CONTENT

<ol style="list-style-type: none"> 1. Introduction, most important points 2. Pests of cereals: morphology, biology, ecology, control, importance 3. Corn pests: morphology, biology, ecology, control, importance 4. Cotton pests: morphology, biology, ecology, control, importance 5. Potato pests: morphology, biology, ecology, control, importance 6. Beets pests: morphology, biology, ecology, control, importance 7. Tobacco pests: morphology, biology, ecology, control, importance 8. Asparagus pests: morphology, biology, ecology, control, importance 9. Pests of legumes: morphology, biology, ecology, control, importance 10. Pests of rapeseed: morphology, biology, ecology, control, importance 11. Polyphagous pests I: morphology, biology, ecology, control, importance 12. Polyphagous pests II: morphology, biology, ecology, control, importance 13. Polyphagous pests III: morphology, biology, ecology, control, importance

4. LEARNING & TEACHING METHODS - EVALUATION

TEACHING METHOD	Face to face	
USE OF INFORMATION & COMMUNICATIONS TECHNOLOGY (ICT)	Use of ICT in Teaching and in Communication with students	
TEACHING ORGANIZATION	<i>Activity</i>	<i>Workload/semester</i>
	Lectures	39
	Laboratory exercises	26
	Literature research & analysis	15
	Independent learning	45
		125
STUDENT EVALUATION	Concluding Written Assignment (15%) Multiple Choice Test & Short Answer Questions (85%)	

5. SUGGESTED BIBLIOGRAPHY

1. MORILL, W. (1995). INSECT PESTS OF SMALL GRAINS. AMER PHYTOPATHOLOGICAL SOCIETY
2. CAPINERA J. (2020). HANDBOOK OF VEGETABLE PESTS. ACADEMIC PRESS.

ANNEX OF THE COURSE OUTLINE

Alternative ways of examining a course in emergency situations

Teacher (full name):	Maria Pappas
Contact details:	mpappa@agro.duth.gr
Supervisors:	NO
Evaluation methods:	Written examination
Implementation Instructions:	<p>Before the exam, a link to MS Teams which the students should follow on the day and time of the exam will be sent via e-class exclusively to the institutional accounts of the students who have registered for the course and declared to have accepted and understood the terms of distance learning and remote evaluation. MS Teams will be used for identification processes of the students via the demonstration of their academic identity. Students should also log in to the e-class page of the course using their institutional account. The exam will be available only to the registered users of the course who are eligible to participate in the exams. After logging in to e-class, students must select 'Exercises' from the options menu (left) and then the exercise entitled 'Exams'. The exam includes multiple choice questions, one of which is correct, while there is a negative score for wrong answers (not for the blank ones) equal to 1/2 of the correct answer. The total number of questions is 20 and the duration of the exam is 60 minutes. Each correct answer is scored with 0.5. From the beginning of the exam by the students, there will be a time limit of 20 minutes (at the top right of the screen, the students will be able to see the time left to complete the exam) per repetition. There is no limit in the number of repetitions allowed. However, the FIRST submitted exam will be the one to be considered. Participants must remain logged in to MS Teams during the exam. The procedure is governed by the rules described in the Code of Ethics and Good Practice of DUTH as well as the Policy for the Protection of Personal Data when using remote evaluation methods of DUTH.</p>
