

Title: **Hellenic Bioinformatics 12 2019 conference; announcement #2**

Dear colleagues,

This is a follow-up/update of H.bioinfo 12 conference / announcement #1.

IMPORTANT:

Early and Late registration deadlines have been moved to SEP 15th and SEP 30th, respectively. Also, abstract submission is now until SEP 3rd.

- The **12th annual Hellenic Bioinformatics Conference** will be held in October 11-13, 2019 at Foundation for Research & Technology - Hellas (Institute of Molecular Biology & Biotechnology) Heraklion, Crete. This international event is organized by the Hellenic Bioinformatics (H.bioinfo; <http://hbio.info>) society and supported by local research/education organisations.

- **Hands-on workshops** will be provided on protein-protein networks and single cell RNA analysis on October 10th.

- **Conference theme:** “Precision Medicine, Biodiversity & Genome Biology“. The conference brings together bioinformatics experts, computational biologists, computer scientists & engineers, biologists, physicists, chemists & chemical engineers, mathematicians, statisticians, epidemiologists, clinical scientists and pharmacologists to serve the wider community’s needs for education, training and networking.

H.bioinfo 12 • 2019 aims at the continuation of our community efforts to establish a strong bioinformatics sector in both Greece and Cyprus and create a fertile ground for exchanging ideas and forging collaborations between various laboratories nationally and internationally.

The site of the conference is:

<https://hscbio.wordpress.com/conferences-when/2019-2/>

Further announcements will follow.

We hope to see you all in Crete in October!

For the Organizing Committee

Ilias Kappas

Assist. Professor

School of Biology, AUTH

(Chair, Hellenic Bioinformatics)
